PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience designing and building backend systems, internal platforms, and AI-integrated applications. Proven ability to take products from idea to deployment — including document intelligence systems, recommendation engines, and search platforms. Strong foundation in Python, databases, and cloud infrastructure, with hands-on experience applying LLMs and AI agents to real-world business problems.

TECHNICAL SKILLS

Languages: Python, SQL | **Backend & APIs:** FastAPI, Flask, REST API, ETL/ELT | **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch, SQL Server | **AI & Search:** LLM, RAG, Vector Search, OCR, NLP, AI Agents | **DevOps:** Docker, Linux, Git

EXPERIENCE

ECOBA VN JSC.

Hanoi, Vietnam

Software Engineer

Sep 2025 – Present

- Solely responsible for all software-related work — covering **frontend**, **backend**, and **database**.
- Built and maintained **internal web applications** end-to-end for business operations.
- Integrated third-party platforms including **VNPT eContracts**, **Microsoft 365**, and **SAP**.
- **Drove** the direction and roadmap for **internal tooling**, delivering software solutions across departments.

ADDJ TECHNOLOGY DEVELOPMENT JSC.

Hanoi, Vietnam

Software Engineer / Head of Digital Solutions

Jun 2020 – Sep 2025

- Built an **AI-powered document search platform** using **LLMs** and **vector search** across thousands of internal documents.
- Developed an **OCR-based extraction system** to digitize and structure data from scanned documents.
- Designed and implemented a **data warehouse** to centralize company data for reporting and analytics.
- Created a **smart recommendation engine** leveraging user behavior data to personalize content delivery.
- Deployed **NextCloud storage** serving 50+ employees with access control and uptime management.
- Led large-scale **document digitization projects**, defining workflows, quality standards, and timelines.

FUBON LIFE VIETNAM INSURANCE CO., LTD.

Hanoi, Vietnam

Software Development Intern

Sep 2019 – Mar 2020

- Developed and maintained internal web applications using **Java** and **Python**.
- Implemented new features and resolved bugs for business operations tools used across departments.

PERSONAL PROJECTS

English Learning App — AI-powered daily vocabulary push notifications with personalized learning suggestions (Python, SQLite, Cron Jobs)

News Summarization App — AI-driven daily news aggregator and summarizer across multiple domains (Python, NLP, LLM)

Japanese LMS Web App — Full-stack learning management system for Japanese language study, built with Flask

Document Digitization Platform — Web app for document scanning, OCR extraction, and PDF compression

EDUCATION

AI/ML Engineer — AI Vietnam Dec 2023 – Jun 2025

Cybersecurity & Linux — Athena Training Center Jun 2022 – Oct 2023

B.Eng. Software Engineering — Hanoi University of Industry Jun 2016 – Jun 2020

CERTIFICATIONS

AngelHack HackHCMC – Certificate of Participation

AI Vietnam – AI/ML Engineer Certificate
